AROUND THE TOWN

J. A. Lang was a visitor at Three Hills last week.

Our best flour at \$3.10 at C. C. Pearson's.

See Hembling's local grain shocker—put in an O. K. Grain Shocker.

J. A. Gilmore, the baker, has purchased the property occupied by him from Jesse Baker.

Mrs. (Dr.) H. G. Taylor, of Bankhead, Alta., is visiting with Mr. and Mrs. J. Gilmore, for a few days.

FOR SALE—A bird brooding cage in first class condition. Apply at Pioneer office for particulars.

The I. O. G. T. Lodge meeting on Thursday night will be held in the Hall above Mr. Bailey's store at 8 o'clock.

N. Weicker will ship hogs on Tuesday, April 20th. Hogs must be delivered on Monday, April 19th.

Brome grass at 12c per pound at C. C. Pearson's.

FOR SALE—A light buggy pole and a two horse power International gasoline engine. Apply to J. A. Gilmore, the baker.

The Calico ball held on Monday night was fairly well attended and the ladies as usual are to be congratulated on the success of the undertaking.

Springtime is here.—I. E. Hallman can supply you with all kinds of good strong vegetable and flour plants. Give him your orders early.

LECTURE—On Tuesday evening April 20th, in the Methodist church, by C. H. Huest's, M. A., Red Deer. Subject—"The making of a man." Admission, adults 25c, children 15c.

C. F. Hayes, business manager of the Edmonton Bulletin, and F. Dunham, of the Bulletin staff were visitors with the editor and J. E. Stauffer, M.P.P., over the holidays.

The ladies of the Neapolis W. C. T. U. will give a "Francis Willard Tea" at the house of Mrs. R. C. Oldham, Tuesday April 20th. A good programme and a dainty supper all for 10c. Everybody come.

All kinds of garden seeds at the lowest possible prices at C. C. Pearson's.

O. W. Hembling has secured the agency for the Grain Shocker. This machine is quite a novelty, and will likely find great favor with the farmers. The shocker can be attached to any binder and it is claimed will do the work better than it can be done by hand. Mr. Hembling is getting in a carload of these machines.

The church authorities are complaining about the actions of a number of young men who congregate around the church entrances and lobbies while services are being conducted and creating a disturbance. It is hoped that these young men, who should know better, will take warning and behave themselves in future as the authorities are determined to put a stop to this practice.

Alex Ledingham of Lacombe, was a visitor at Mrs. Newsom's over the Easter holidays.

W. Worton was a visitor to Red Deer over the Easter holidays.

Master Corny Hiebert spent the Easter holidays with his parents, Mr. and Mrs. C. Hiebert.

Lee Martin came down from Edmonton last week to spend the holidays with his parents.

Mr. Bruce Ferguson of Darlington, Ont., arrived in town last week on a visit to his sister Miss Ferguson.

Jesse Baker leaves for Merrington, Sask., on Wednesday. Mr. Baker has purchased some scrip land and intends making his home at Merrington for the future.

The misses moyle gave an Easter party to a number of their young friends on Monday afternoon.

Leave your orders at the stamp photo studio for our side work, such as Photographs, Horse and cattle ranges, or Farm buildings. Work guaranteed. W. S. Durrer.

A little son of F. C. Bush nearly lost his life a few days ago by eating grain that had been pickled in bluestone. Last reports state that he was recovering slowly.

The stores start the early closing movement on Thursday night. Stores will be closed at 7 o'clock every evening and on holidays, except Saturday nights and nights before holidays.

Geo. Dobson, Craigie Mains Farm, Three Hills, was a visitor to the Calgary Horse Show last week. Mr. Dobson was loud in his praise of the show, and this coming from a man of Mr. Dobson's well known knowledge of horses speaks well for the show.

Great Bargains at the Didsbury Stamp Photo Studio, one door east of the Golden West Hotel. One dozen cabinet photos, regular \$6.50, bargain price \$3.25. Patent folder cards, stamp photos 50c dozen. Post cards \$1.25 a dozen. Don't miss to see the new styles and work in show case. This will just last a few weeks up to April 24th. W. S. Durrer.

The concert given by the Olds band, under the auspices of the Hockey club, on Friday night last in the Opera House was very much enjoyed by those who went to hear them. The house was fairly well filled. The Olds band has certainly improved very much since its re-organization and its career from now on will be watched with interest especially since the splendid concert given here last week.

MARRIED

WIEBE-NIEBUHR—At Sunnyslope, on April 11th 1909, Mr. Geo. William Wiebe of Dalmony, Sask., to Miss Gretchen Niebuhr of Sunnyslope, Alta., by J. B. Detweiler.

BIRTHS

On Wednesday, March 31st, 1909, to Mr. and Mrs. A. V. McCorquodale, High River, a son.

On Sunday, April 11th, 1909, to Mr. and Mrs. A. G. Schmidt, a son.

On Monday, April 12th, 1909, to Mr. and Mrs. M. Ryckman, a daughter.

UNION BANK OF CANADA

Capital, Rest and Undivided Profits Exceed.
\$5,000,000

Covers the West

The Union Bank has over 145 Branches in Canada, and over two-thirds—or nearly two-thirds—of these are in the West from Fort William to Prince Rupert. To Western Farmers, Ranchers, Grain and Cattle Dealers and Merchants, and to Eastern firms doing business in the West, we offer an unequalled Banking service. Savings Department at every Branch. \$1.00 opens an account, on which interest at highest current rate is paid.

Doctor Changed His Mind

In the year 1860, 18 years ago, Mrs. G. S. Gomer, of Belle Isle, N. B., was in a sad condition. All her relatives had died of consumption and there was every indication that she was going the same way. This was aggravated by an attack of Kidney Trouble.

At this point her husband suggested PSYCHINE. The doctor who attended said PSYCHINE was worthless but it effected a wonderful cure. Eighteen Years After in a letter bearing date August 14, 1908, Mrs. Gomer says: "I am better than I have been for years. My lungs have not troubled me since I took your treatment. My physician told me I could not take a better tonic than PSYCHINE. And I recommended it to all who are suffering from Lung Trouble and General Debility."

Psychine is the greatest of Tonics giving Health and Energy, and should be in every house. It should always be used for Colds, Loss of Appetite, Weariness, etc. Sold by all Druggists and Dealers, at \$1.00.

Write Dr. Slocum, Limited, Spadina Ave., Toronto, for a free trial of Psychine and mention this advertisement.

So Was Mother.

Even if there had not been kernels of rice on her hat and a glad light of love in her eye, any bachelor could have told that she was the bride. And the manner in which she spoke to her husband showed they had not been married long. As the bride, passing crowd sped the couple and rushed over to meet the bride.

"Well, well, Agnes," he cried, exclaiming his hand, "you mean to say that you're married?"

"Why—why, yes," the girl stammered, with a blush mounting to her cheeks as she tried to defend her novel situation. "You—your know, it runs in the family. Mother was married, too."

It is easier to prevent than it is to cure. Inflammation of the lungs is the companion of neglected colds, and once it finds a lodgment in the system it is difficult to deal with. Treatment with Bickel's Anti-Consumptive Syrup will eradicate the cold and prevent inflammation from setting in. It cures little, and is as satisfactory as it is surprising in its results.

Not Always Boys.

The old gentleman who was always declaring that boys were not what they used to be, stopped in front of the smart child.

"Well, Johnny," greeted the old gentleman, "how are you today?"

"Very well, sir," responded the smart child, shyly.

"And do you ever think what you are going to do when you are a great big man?"

"No, sir."

"Ah, I saw it. Children are so shiftless these times. And why don't you give it any thought?"

"I—because I am a little girl, sir."

And the last seen of the inquisitive old gentleman he was making long strides down the street.

"I can truthfully say that I believe that, but for the use of your Emulsion I would long since have been in my grave. I was past work—could not walk up-hill without coughing very hard."

THIS, and much more was written by Mr. C. W. Howerton, Clerk's Gap, W. Va. We would like to send you a full copy of his letter, or you might write him direct. His case was really marvelous, but is only one of the many proofs that

Scott's Emulsion

is the most strengthening and re-vitalizing preparation in the world. Even in that most stubborn of all diseases (consumption) it does wonders, and in less serious troubles, such as anemia, bronchitis, asthma, catarrh, or loss of flesh from any cause the effect is much quicker.

Do not delay. Get a bottle of SCOTT'S EMULSION to be sure it is SCOTT'S and not a cheap imitation.

ALL DRUGGISTS

Let us send you Mr. Howerton's letter and send literature on Consumption. Just send us a Full Card and mention this ad.

SCOTT & BOWNE
126 Wellington St. W. Toronto

W. N. U. No. 739.

A Reflection.

"The late Senator Allison," said a Dubuque lawyer, according to the New York Tribune, "was a stickler for personal cleanliness, even for personal elegance. There was no quicker way for a man to get on his black boots than to be unshaven, to have the trousers unpressed, the boots unpolished."

"We used to have here in Dubuque a decidedly slovenly lawyer. This lawyer appeared one afternoon at a meeting with a rose in his buttonhole. The sight of a rose in the buttonhole of such a sloven excited a good deal of comment."

"I wonder where on earth he got it?" said one.

"Senator Allison smiled."

"Probably," said he, "it grew there."

"That looks like a newly-made grave—that little hummock over there on the desert," and the traveler from the east.

"That's just what it is, neighbor," answered Amos Al. "The body of the Weekly Castor Spine was buried over there last week."

"What was his complaint?"

"He didn't have none. It was Cystitis that had the complaint. You see, there was a baby born up to Cal's house a spell ago, and the editor wrote an item about it, sayin' a two-headed little girl had come to make Cal and his woman happy, but it turns out the printer got the letters mixed somehow. Last-est-est it said in the paper when Cal read it that it was a two-headed baby, and him bein' an impulsive cuss, there wasn't nothin' to do but to get the printer to make it right, but one."—Chicago Record-Herald.

Repeat it:—"Shiloh's Cure will always cure my coughs and colds."

Henry of Navarre told his army to follow his plume.

"Get the notion by watching the women tag after my wife's new hat," he explained.

Herewith he pressed on to battle.—New York Sun.

Fairville, Sept. 30, 1902. Minard's Liniment Co., Limited.

Dear Sirs,—We wish to inform you that we consider your MINARD'S LINIMENT a very superior article, and we use it as a sure relief for sore throat and chest. When I tell you I would not be in the world if the price was one dollar a bottle, I mean it.

Yours truly,
"CHAS. F. TILTON.

"Some men," said Uncle Eben, "have a way of keepin' their consciences quiet by takin' de minister's advice on Sunday an' do de lawyer's advice all de rest o' de week."—Washington Star.

Minard's Liniment cures Garget in The First Pear of the Realm.

Dr. Davidson, Archbishop of Canterbury and first peer of the realm, who had such a large hand in killing the Education Bill, was confidential friend and adviser to Queen Victoria for twenty years. The very fact that he was honored with such a position, and kept it so long, is an open proof of his tact, shrewdness, and common sense. In fact, it would be an compliment to say that he has never made a mistake. He has certainly a marvellous gift of "not putting his foot into it." As to the effects of gun accident in his youth, the archbishop has to be content with the very simplest of diet. He touches scarcely any meat, and frequently subsists for months on nothing but milk and food. Like the Bishop of Ripon, Dr. Davidson has never taken kindly to eaters. He is a man of inexpensive tastes, and in the hands of the disease of Rochester was a constant patron of omnibuses and tramcars.

Professional Opinion.

"Well, is there anything new, novel or interesting?" Inquires our friend the theatrical manager as we enter his neatly but not gaudily appointed office.

"Nothing much," we reply, "except that a new star has been discovered," referring, of course, to the new planet that has been found somewhere the other side of Neptune.

"New star?" he asks. "How's that?"

"It's a new star, but it is so far away that we can't see it."

"Humph! Another of those Shakespearian actors, I suppose."

A Large Excuse.

"A French student in Algeria," said a playwright, "had for his colonel a very tall, lanky, round shouldered man. This round shouldered colonel one night was making a quiet inspection. Passing the sentinel, he found, to his rage and indignation, that he was not challenged. So he returned to the man and roared:

"You didn't challenge me?"

"No, sir," faltered the sentinel, as lying.

"Well, why didn't you?" the colonel demanded.

"Excuse me, sir," said the sentinel, "but I thought—I beg your pardon, sir—I thought you was a camel."

TRY THIS FOR YOUR COUGH

Mix two ounces of Glycerine with a half ounce of Virgin Oil of Pine compound and a half pint of straight Whisky. Shake well, and take doses of a teaspoonful every four hours. This mixture possesses the healing, healthful properties of the Pine, and it breaks a cold in twenty-four hours and cure any cough that is curable. In having this formula put up, be sure that your druggist use the genuine Virgin Oil. Pine compound pure, prepared and guaranteed only by the Leach Chemical Co., Windsor, Ont.

It Wasn't.

The play was not by any means brilliant, and obviously the man was bored. Suddenly he leaped to his feet.

"I heard an alarm of fire," he said. "I must go and see where it is." His wife, whose hearing was less acute, made way for him in silence, and he disappeared.

"It wasn't fire after all," he said, on his return.

"Nor water either," said the wife.

THE TRUE CAUSE OF RHEUMATISM

Caused by Uric Acid in Blood and Can Only be Cured Through the Blood.

Not many years ago doctors thought rheumatism was a cold, caused by exposure to cold or wet. Now they know that rheumatism is caused by uric acid in the blood. This acid contracts the muscles, stiffens the joints and irritates the nerves. Then the cold and wet make the joints and muscles grow with aching rheumatism. You blame the weather but the real cause is in the blood. If not promptly treated the stiffness spreads and the pain grows worse. The real cause is uric acid in the blood. It cripples, tortures day and night. If the disease touches the heart it means sudden death. You can't cure rheumatism with liniments, plasters or hot cloths. You must get to the root of the trouble in the blood. The one sure, scientific way to cure rheumatism is Dr. Williams' Pink Pills, because they actually make new blood. They sweep out the poisonous acid, loosen the joints and muscles, and bring new blood to where before there had been pain and muscle.

Mrs. Fred. Sabeau, Canada Creek, N. S., says: "I have been crippled for years with a severe pain in my right hip. It grew gradually worse until I could scarcely get about. My limbs ached. The pain was really almost unbearable. At first I tried foot drafts and liniments, but this gave me only the most temporary relief, and I felt as if I was to go through the rest of my life as a suffering cripple. A neighbor whose daughter had been cured of rheumatism by Dr. Williams' Pink Pills advised me to try this medicine, and I purchased three boxes. Before they were all gone I was able to get my foot up on my knee and make my shoe something I had not been able to do for two years, and I began to feel I had at last found a medicine to cure the trouble. I kept on taking the Pills until I had used, I think, a dozen boxes, when I was completely cured. I am as well and strong today as ever I was in my life. I want every sufferer to be warned that the only real cure is a sure cure for rheumatism, and if a trial, their pains and aches will disappear as mine did."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A Valuable Asset.

Dr. William A. White, Superintendent of the Government Hospital for the Insane near Washington, was walking about the asylum grounds one day when he met a "saint."

"Doctor," said the insane man, "how many crazy folks are there here any more?"

"A great many," the doctor replied—"two or three thousand."

"Well," continued the questioner, "you'd have a hard time making a list, but if it wasn't for us, wouldn't you?"—Cleveland Leader.

Just Like His Better Half.

"Old Josh Weatherby thinks a lot of his gun, don't he?" drawled one of the loungers in the back of the crossroads.

"Fats it as an affectionate-like as if he were his old woman."

"Yes," laughed the storekeeper as he brushed up the pruned, "and Josh says it reminds him of the old woman."

"In what way?"

"Always kicking and hard to handle."—Chicago News.

The Limit.

"Carson's the most absentminded chap I ever saw."

"What's he been doing now?"

"This morning he thought he'd left his watch at home and then proceeded to take it out of his pocket to see if he had time to go home and get it."—Lippincott's Magazine.

Erratic Science.

"Mushrooms always grow in damp places, and so they look like umbrellas," wrote a small boy in the science examination. Other examples of the "howlers" are supplied by a writer in the Scientific American.

"Air is the most necessary of all the elements. If there were no such thing as air I wouldn't be writing this essay now, also there would be no pneumatic tires, which would be a sad loss."

"Electricity and lightning are of the same nature, the only difference being that lightning is often several miles in length, while electricity is only a few inches."

"Air usually has no weight, but found to weigh about fifteen pounds to a square inch."

"The axis of the earth is an imaginary line on which the earth is supposed to take its daily routine."

"The difference between air and water is that air can be made wetter, but water cannot."

"Gravity is chiefly noticeable in the Autumn when the apples are falling from the trees."

"Things which are equal to each other are equal to anything else."

"A paragon is a perfect specimen which if produced to meet itself does not meet."

"The lungs are putrefied in the lungs by inspired air."

The cheapness of Mother Graves' Worm Exterminator put it within reach of all, and it can be got at any druggist's.

"Officer," said the whimsical tourist to the big, strapping policeman who had saved him from being run over by an automobile. "You remind me of a character in one of Kipling's stories. You've heard of Kipling?"

"Slip 'em," said Officer Hoolligan.

"Sure," he runs a Chinese laundry about four blocks from where I live. Trot along, sonny."—Chicago Tribune.

Repeat it:—"Shiloh's Cure will always cure my coughs and colds."

A Miservary Hero.

There is just about to return to the Far East a man who has probably done more single-handed for the general enlightenment and education of the Chinese than any kind of missionaries. Dr. A. Macdonald West, who has been called "The Saviour of Liao-yang," came home for a short holiday after twenty-seven years of arduous labor in the Far East, and is now returning again. All the horrors of war, pestilence, and famine have not deterred him from many times over. When in 1888 a terrible flood devastated the Liao-yang district, Dr. Westwater was instrumental in affording relief to 20,000 people, while, when the Boxer rebellion broke out eight years ago, and the Russians decided to bombard the town, on account of the reckless firing of some fanatics, Dr. Westwater undertook to ride into the city, seek out the authorities, and secure the surrender of the city.

Imports Increase.

In forty years imports have increased by no less an amount than \$300,000,000; dutiable goods increased from \$45,225,225 to \$229,017,914, and free goods from \$23,314,102 to \$133,219,550. Once more the increase is most gratifying, as in two years it has been \$54,000,000 in dutiable goods and \$23,000,000 in free goods. Even when we come to show exports from Montreal, we find an increase last year compared with the year 1907. Not very much, it is true, but still large enough to be noticeable. The record to March 31, 1908, was the second largest for the year in 22 years. Turning to manufactures, though the precise figures are not just now available, it is agreeable to know from reliable sources that the increase during the past year must have been considerable.

Polite Nature.

"You love long rambles in the country?" asked the impudent girl.

"Yes, indeed," responded the young man in the green hat with the purple band and buckled shoes. "When I go into the country all nature seems to smile."

"Of course! I don't blame her. It is a wonder she doesn't laugh out right."

Mothers Value This Oil.—Mothers who know how suddenly crowd may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that there is no better preparation to be had for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

The Wife-It is the duty of every married man to make his home happy.

The maid—But suppose he is unable to do it?

The Wife—Oh, he can do it, all right—even if he has to stay away from it.—Chicago News.

Minard's Liniment Cures Diphtheria. Cows.

A citizen of culture and poetic taste went to a public library and asked for Shelley's "Prometheus Unbound."

He was rather taken aback when the librarian replied, with great hauteur: "We don't keep unbound books in this library."—Youths Companion.

The By-law Tangle

The by-law recently submitted to the ratepayers for the issuing of \$3,500 worth of debentures and passed with such a good majority seems to have been wrong according to the solicitors of the company who offered to buy the debentures at such a good figure. While the ordinance governing the municipal bodies does not say anything about submitting a separate by-law for each sum of money, it seems to be the legal opinion of the solicitors of the different companies who tender on the debentures that they must be separate. Didsbury it seems is not the only town which has experienced this difficulty. Calgary has just had a by-law turned down for the same reason after it had been submitted to the ratepayers and passed. The contention it seems against including the expenditure of sums of money for different purposes in one by-law is that there is no safeguard in such expenditure. For instance, it is stated that if the council wished, as the matter now stands, there is nothing to hinder them from spending \$3,400 on one project and only \$100 on the other, notwithstanding that the by-law plainly states that the money is to be expended as stated, and they contend that the debenture for different purposes must be advertised separately.

The whole affair is regrettable, but under the circumstances, their seems to be nothing for it but to advertise the by-laws and let the ratepayers again sanction this expenditure, and it is to be hoped that they will again pass the by-laws and uphold the Council in their efforts to straighten matters out.

The Cloud is Lifting

Two items of current national statistics are special indications of the turning tide. The customs receipts for the month of March exceeded those of the corresponding month last year by \$361,189. The rush of American settlers into the West has begun in unprecedented volume. It is calculated that these settlers are bringing tangible wealth into the country at the rate of a million a week. The season's arrivals, if the present average continues, will amount to at least 75,000 and perhaps 100,000 souls.

Both facts are eloquent with the hope of good days ahead of us. An unfailing barometer is The Globe's advertisements of mechanics wanted. Eighty-one such advertisements appeared in Wednesday's issue, which indicates a progress towards the piping times we had two or three years ago. The figures of the customs returns will be very satisfactory to those who are responsible for Canada's financial welfare. Those of the influx of settlers contain even more inspiring material. Every one of these settlers begins at once to add to the consuming as well as the producing forces of the country, and becomes a contributor to the national revenues. It contains a guarantee that there will be the ways and means for financing the great projects which are absolutely necessary to the development of this enormous country, and development will be both the justification of the expenditure and the supplier of the funds.

It is interesting to note that the population of Canada was almost the same at the dawn of the 20th century as that of the population of the United States was at the dawn of the 19th—both under five millions and a half. For the first thirty years of that cen-

German Schoolboys play Indian

GERMAN schoolboys have discovered that one of the most thrilling games is that of "Indian." In many of the playgrounds of Berlin you will see them rigged out in wonderful "redskin" suits and arm-

ed with wooden sabers and toy rifles. Bloody battles they have, doubtless

enjoying them every bit as much as American boys would. Even the boys' instructors find the play fascinating, and spend much time watching their pupils assume the characters of Indian chiefs.

Luncheon on the Way to Pussy Heaven

If my Kitty, when she dies, could go to heaven,
I think I know the path she'd like to go—
Along the Milky Way she'd choose to travel;
She never could be hungry THERE, you know.
Margaret G. Hayes.

Our Visitor from Tokio

MR. JAP, from Tokio, has come to visit us. An unfortunate accident while traveling, however, has caused Mr. Jap to reach us in pieces. But it will be a simple matter to put him together so that he will look as spick and span as he does in the picture above.

It must be admitted that Mr. Jap's lavishly decorated robe is built upon rather straight and narrow lines. Yet, after you have pasted the different parts of his body upon pasteboard, then cutting them out, and have joined these parts together with pieces of stout paper (the size shown above), you will find the Japanese gentleman to be not as stiff and dignified as might have been expected. For he will nod his head, seat himself, kneel, salute with his arms, and when you have placed a bit of cord through his hat, for a queue, he will dance in a most sprightly fashion. Mr. Jap, I might as well tell you, is a jumping-jack

The Old Hermit of Cameron's Bluff

ONE might suppose a boy would like to build for himself a home in the treetops. But this tale is about a MAN who lives there. Of course, the wisest people know what fun can be had among the tree branches.

Many years ago this wise man found that the companionship of people was often very tiresome. He could be better friends, he knew, with the birds, the

of the tree. Here, upon a platform just big enough for a box of books, a flagpole and a shelter for a bed, we find our host.

He greets us kindly, does General Hugh Cameron, for that is the name. The world knows him by. And this, in reply to our questions, he tells us something about himself. Much can he tell, for the hermit is 81 years old. He relates stories of the early days of Kansas, before the emigrants came and when the memory of Indian massacres was just beginning to fade; he speaks of his acquaintance with Clay, Webster, Douglas, Horace Greeley; he tells of the stirring days of the Civil War, and of the noble President, Abraham Lincoln. It is like delving into a history book, but much more interesting.

While he is talking we carefully observe the appearance of the old man. His gray hair streams down over his shoulders and his beard (which he has not had trimmed since 1875) is tied in a towel. The faded old blue army coat and the old red tobyogan can be worn, because he doesn't think it important for one to spend too much time on dress.

COMFORTABLE ABOVE

Under the hermit's guidance, we now descend the ladder. At the base of the tree he shows us his winter house, which is a sort of shed built against the side of the ravine and exposed on one side. Here he keeps a cook stove and a box for his books. The hermit is a great student, spending much time reading. There is also a fire-clad box, in which he sleeps in cold weather. Letting himself in with a key, he looks it when he is inside.

But the wise man's hut is not without modern improvements. He lights it by electricity, and has telephone connections. The phone he uses mostly to send messages to his farm, Camp Ben Harrison, which is four miles out of Lawrence, at Cameron's Bluff. Here, by the Kansas river, he spends a part of the summer, sitting the ground using a team of oxen and tending to his orchard. All the students at the University of Kansas know him. They call him the "old hermit of Cameron's Bluff."

As the "old hermit" courteously bade us goodbye, we wondered who other people aren't wise enough to see that living in the treetops is one of the nicest ways to live.

THE HOUSE IN THE TREE

trees, the flowers—the growing things of nature. Therefore he became a hermit. Let us suppose it is summer, and that we are on our way to visit the wise man. We are in the town of Lawrence, Kansas. Walking along North Louisiana street, we come to a tract of land, which we proceed to cross. Presently we see before us a ravine, upon the side of which is a great tree—the summer home of the wise man. We should like to be polite and to knock at the door. But we can't, because there isn't any door. So we call out, asking if we will be acceptable as guests. When permission is granted we climb up a ladder that leads to a little platform built in a fork

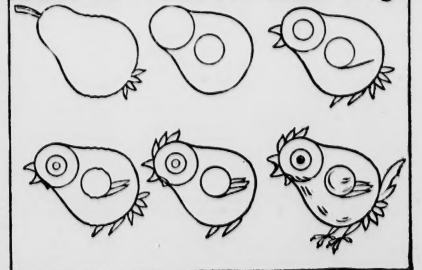

Reasons for Snow

JUST for sledding,
Just for sleighing,
Just for snowballs,
And for playing
With the snow man—
Comes the snow.

And the snow scene
Made completely
By the Artist,
Winter, neatly,
Is for children—
This I know.

Auction Sales to be Held by G. B. Sexsmith

APRIL 19th—P. Wilson, on S. W. 1/4 Section 13, T. 31, R. 4 W. 5, about 1 1/2 miles west of Didsbury, at 1 o'clock.

APRIL 24th—Mrs. Wm. Colvin, at the Stock Yards, Didsbury, at 1 o'clock.

Sunday School Lesson

CONDUCTED BY REV. T. D. JONES

April 18th, 1909

Correspondence is invited upon any lesson, or points of difficulty. Address to "Sunday school," Pioneer Office, Didsbury.

Golden Text, "And he fell upon the earth, and heard a voice saying unto him, Saul, Saul, why persecutest thou me?"

Acts 9:14

Lesson, Acts 9:1-19. "The Conversion of Saul."

(1) Saul bent on evil. Verses 1 and 2; Stephen's wonderful stand for the new faith did not seem for a while to have much effect upon the mind of Saul. He proceeds to discover the heralds of the cross, and seeks authority from his masters to prosecute vigorously the work of destroying the Kingdom of Christ. Gladly do the members of the San-

hedon welcome the "Gentile" converts. Prayers from many orthodox souls follow him as he proceeded upon his desperate mission. How would you explain the bitterness of Saul's opposition to Christians? Had he known and experienced the love of God could he have undertaken such a cruel mission.

(2) God is at work in the interests of His Kingdom. Verses 3-9. Sauls better self, God within him, refuses to be silenced; ever since the death of Stephen the voice within had been claiming attention. For a while he refuses to heed it, but at last a crisis is reached, strongly and passionately the voice demands, "Why are you persecuting me?" The fact is that when a man makes war upon Christ he is fighting against the highest nature within. In thrusting down Christ a man thrusts down his better self. To crush Christ out of the world is to blot out the beauty of life.

It is possible to consider a real Christian as an expression of Christ, do we hurt or help Christ when we hurt or help Christians? Is God irresistible? Suppose we oppose God and seem to gain our point have we really succeeded?

(3) Ananias becomes a messenger for good to Saul and Saul is called to active service. Verses 10-19. Ananias at first hesitates to obey the command and he does so because he feared Saul. God does not seem displeased at this, but He has knowledge of more recent events than Ananias and hence He gently insists upon obedience. That fact is that none were so well fitted as Saul for the work of evangelizing the world and because of his fitness God elected him to special service. Fitness is always the call to service. God called the Israelites to be a missionary people because they had made a business of religion and thus were, of all peoples, the best equipped for that work. As we equip ourselves, God calls us to service. What is a call to service? Why did Florence Nightingale feel called to go to help the stricken soldiers? Why did the Canadians call Sir Wilfrid Laurier to govern the state? Why do we call teachers to instruct our boys and girls? The answer is twofold. The first is because of the need of service, and the second is because of fitness. If we are so careful to exact suitability in our servants how much more shall the infinitely wise one require fitness in us ere He commissions us to carry out His purposes.

Three Hills

Here we are again right side up with nobody in the ditch.

Mr. R. Voight returned from his trip abroad and contrary to our expectations he came alone.

Mr. C. Raethke was in Calgary last week attending the Fat Stock show and sale.

Mr. H. E. Davis shipped three loads of hogs last week.

Quite a number from here attended the Auction Sale at W. A. Cunningham's on Thursday, where the articles sold at good prices. Mr. R. Tunnell taking home the fine span of mules.

A prairie fire was seen in the vicinity of Trochu on Saturday. We are sorry to report that a house was burned.

Mr. R. Nichol has moved his family to his beautiful summer residence at Riverside park.

There are already a large number of members enrolled for the Rifle Association, the first election of officers will be held this week.

A female boarder is staying at the home of Mr. and Mrs. R. Morgan.

The directors of the Agricultural society held a meeting on the 8th when much business was done in connection with this season's fall fair which will be held on October 14th. They are working energetically to make the fair excel that of last year.

The contract for building the school in the the Bethel district east of here was let to M. G. Hunt, contractor of Trochu.

Mr. S. S. Nicholas has the well drillers still engaged, they are down about 400 feet at present.

The council held a business meeting on Saturday.

Mr. Roy Skyles was visiting friends in the vicinity of Ghost Pine on Sunday.

Berlin School Report

The following is the report of the Berlin School for the month of March 1909.

Standard III Jr.—Irene Witte, Jacob Dyck, Henry Han, Sarah Han, equal; Jacob Friesen, Mary Friesen, Charlie Burns, Maggie Sawatzky, Lloyd Newson, Saddle Duncan.
Standard II.—Lena Dyck, Isaac Hamm, John Friesen, Sarah Sawatzky.

Part II.—Emma Helms, Bernard Friesen, Harry Duncan.

Part II. (a)—Vera Helms, Susan Dyck, George Shiels.

Part I. (b)—Lena Sanderman, Tena Sanderman.

Part I. (c)—Arthur Oliver, Edna Oliver.

Healthy Expansion

Canada seems to have reached a point of development where there is substantial appreciation of Canadian magazine effort. The HOME JOURNAL announces an increase on June 1st from twenty-eight to forty-four pages with a number of new departments. Miss Jean Graham, at present on the staff of the "Canadian Courier and a staff writer of the "Canadian Magazine," takes the editorial management on April 1st, and is associating with her a number of the best known Canadian writers. The "Home Journal" when the proposed changes have been inaugurated, will be one of the best of its class on the continent. The April number just issued is bright and attractive as usual and has in addition to its very interesting fiction and household departments a number of special Easter features well worth while. The price will be advanced with the June number, but in the meantime subscriptions are being taken at the old figure.

Cultivate the Soil to Destroy the Weeds

The time has arrived when the farmers are again cultivating the soil for the season's crop. In cultivating the soil it is well to handle it in such a way that the weeds will be kept under control. The majority of the noxious weeds in Alberta are one year plants or annuals, and belong to the mustard family. The seeds of the mustards are of an oily nature and will live in the ground for a long period without losing their vitality, germinating under proper conditions. The only way to eradicate them is to get the seeds to germinate and kill the plants while they are young before they mature their seed.

Before these seeds will germinate they must be very close to the surface of the soil, not deeper than two inches and the soil must be firmly packed around the seed. If there were many weeds in last year's crop it will be found advisable to burn the stubble off in the spring. This will destroy many of the seeds that are on the surface of the ground, and will render the soil more easily cultivated. If the stubble is burned, care should be taken to prevent prairie fires by plowing around the field. The soil should then be disked and harrowed. This will encourage the seeds near the surface of the ground to germinate, and by successive cultivations with disk or harrow, they will be destroyed and other seeds brought under such conditions that they will germinate. If this practice of disking and harrowing is followed up to the 1st of June a large number of weed seeds at the surface of the ground will have been destroyed.

The land can then be plowed and packed if possible, and in a very natural variety of ways. In northern Alberta it is safe to sow barbed wire as late as the middle of June. When the crop is about four inches high and the roots are firmly established in the soil, it should be harrowed with a light lever harrow with spring teeth. This will encourage the growth of the crop. The harrowing should not be done when the ground is wet, as the ground will stick to the harrow and have a tendency to destroy some of the grain. If there are only a few weeds left they can be hand pulled, but if there is a large quantity it will be advisable to cut it off green feed before the weeds reach maturity. Usually, however, it will be found that the barley will choke out any weeds that come up afterwards.

Where fall wheat is sown the method of disking and harrowing during the summer should be continued until it is time to plow for wheat. The above method of cultivation only pertains to very badly infested fields. It will not be necessary to carry it out where there are only a few weeds present. However, it will always be found advisable to harrow the growing crop of grain when it is from four to ten inches high, as soon as the roots are firmly established in the soil. Where only a few weeds are present, they should be hand pulled. Never sow or feed to stock any grain that contains weed seeds.

HORSE COLLARS

Our stock of Horse Collars is better assorted than ever. We can fit your horses perfectly, for we have 15 different grades and styles of Horse Collars, sizes from 18 in. to 38 in. Be sure and don't wear a collar on your horse that don't fit the shoulder. We know just what is wanted and are in position to give you satisfaction if you allow us.

OUR PRICES ARE RIGHT

We have this year added to our stock

HANFORD'S BALSM OF MYRRH

This balsam is, without any doubt, the best healer on the market, being a liquid, it also makes a splendid gall cure for horses should-ers and is better than salve. The salve galls a lot of dirt on the face of the horse collar and is inclined to hurt the shoulder unless watched very closely.

TRY A BOTTLE OF THIS BALSM

If these goods are not what we represent them to be, we will gladly refund your money upon receipt of your empty bottle. Bottles in three sizes, 25c., 50c. and \$1.00.

Distress from Upset Stomach

Take your sour stomach or make you call it indigestion. Despair, Gout, or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50 cent case of Pope's Diapysin and let you eat one 22-grain Triangle and let it within five minutes there is left any trace of your stomach misery.

The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become afflicted with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick heads, nervousness, dizziness and many other similar symptoms.

If your appetite is feeble and nothing tempts you, or you belch gas, or you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of indigestible food.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapysin.

JUST CURED HIM THAT WAS ALL

WHAT DODD'S KIDNEY PILLS DID FOR THOMAS MOON.

Doctors could Not Cure His Dropsy but Dodd's Kidney Pills Cleared It Out Completely.

Maibstone, Sask. (Special).—"Cured me completely. That's what Dodd's Kidney Pills did for me." Such is a statement made by Thomas Moon, a well-known resident of this place who for two years suffered with Dropsical Swellings brought on by diseased kidneys.

"I had pains in the small of my back," Mr. Moon continues, "and across the loins. The swelling commenced first in my legs and gradually got to my body. I tried different doctors but kept getting worse every day until I was swollen up to an awful size."

"One doctor sent me to the hospital where I got a little benefit but the swelling soon all came back."

"Then I used Dodd's Kidney Pills and as I said before they cured me completely."

Dropsical Swellings are caused by diseased kidneys failing to take the surplus water out of the blood. Cure the kidneys with Dodd's Kidney Pills and the Dropsy naturally cures itself.

Comparison.

Little Joe—Mamma, I saw a dog today that had only three legs!

Mamma—Didn't you feel sorry for him?

Little Joe—Course not; he had one more leg than I have.

Always Serviceable.—Most pills lose their properties with age. Not so with Parmenter's Vegetable Pills. The pill mass is so compounded that their strength and effectiveness is preserved and the pills can be carried anywhere without fear of losing their potency. This is a quality that few pills possess. Some pills lose their power, but not so with Parmenter's. They will maintain their freshness and potency for a long time.

Slug 42—How do you spell— Old-fashioned Proofreader—Any way you please. All rules of spelling have been abolished.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and if it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give you \$5.00 Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Remedy, and you pay no fee. F. J. CHENEY & CO., Toledo, O.

Sold by Druggists. Take Hall's Family Pills for constipation.

The bald-headed man was asked if he missed his hair much. "Only when his hair fell out," he replied pleasantly.—Philadelphia Ledger.

Repeat it:—"Shiloh's Cure will always cure my coughs and colds."

Wife—I saw Mr. Chace this afternoon and he looked very bad. What's the matter with him—do you know?

Hubby—Compound fracture.

Wife—What sort of compound fracture?

Hubby—He's broke, and Miss Doughbar, discovering that fact, broke her engagement.—Philadelphia Inquirer.

Desperate Coughs

Dangerous coughs. Extremely perilous coughs. Coughs that rasp and tear the throat and lungs. Coughs that shake the whole body. You need a regular medicine, a doctor's medicine, for such a cough. Ask your doctor about Ayer's Cherry Pectoral.

We publish our formulae. We have almost lost the secret of the formulae. We turn out a lot of cheap imitations.

Any good doctor will tell you that a medicine like Ayer's Cherry Pectoral cannot do its best work if the bowels are constipated. Ask your doctor if he knows anything better than Ayer's Pills for correcting this sluggishness of the liver.

Made by Dr. J. C. Ayer & Co., Lowell, Mass.

Cruel Contests.

Bird singing contests for money and other prizes used to be frequent in England. Many of the little companies, notably chaffinchers, were subjected to direct cruelty on these occasions. To make them sing their eyes were pierced by a red-hot needle for the purpose of completely blinding them. This was done to prevent any opposing exhibitor from frightening the birds and stopping their singing. An end was obtained by warring some object in front of them. Blinded, the birds could see nothing, and they sang. The cruel practice has been practically stamped out by the action of the Royal Society for the Prevention of Cruelty to Animals, which has issued numerous summonses against offenders. It may be that in some dark corner of the country the same cruelty is still practiced, but the custom as a system is now gone away with.—Parron's Weekly.

Earned £15,000 For Charity.

Having already given over £15,000 to the cause of the outcast, his readings of "The Christmas Carol," Sir Squire Bénédict is now arranging a series of readings from the same work in order to bring the sum gained up to £20,000. And there is not much doubt that the efforts of Sir Squire have a habit of accomplishing most things he sets out to do. He is said to be the only actor, with the single exception of David Garrick, who realized a fortune solely in his own theatre without the aid of provincial or American tours. And yet when he appeared upon the stage it was in the midst of parts and at a guinea a week. His wife, of course, was the famous Marie Wilton, one of the finest comedienne London has ever seen. She is a great mistress, not only of elocution, but of all dramatic and management. This is her golden rule: "Don't be afraid of opening your mouth, and don't forget the root of it is nature's sounding-board."

Minard's Liniment Cures Distemper.

Mrs. Knicker—Wouldn't you vote the same way as your husband? Mrs. Knicker—Yes, that I would first tell him which way to vote.—New York Sun

SAVED BABY'S LIFE.

Mrs. T. Osborn, Norton Mills, N. Y., says:—"I have no hesitation in saying that Baby's Own Tablets saved my baby's life. I cannot say enough in praise of this medicine. He was so sick and I could not get any notice of anything, and I was so much that I was worn out caring for him. After giving him the Tablets there was a great change, and he is now a bright-eyed, laughing baby. The price of our home, Baby's Own Tablets cure all stomach and bowel troubles, break up colds, croup, and keep the little ones healthy and happy. Sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

When Tired—Don't get your teeth and work harder. Ease up a little. Don't talk any more than you can help. Talking takes vitality. Lie down in a dark place, if only for fifteen minutes. Don't read anything in which you are not interested. Don't feel that everything must be done in one day. There are 364 more. Realize that it is better to leave things undone than overdo yourself. Avoid people and their woes at a time. Seek some one frivolous. Don't try to improve yourself. Give your mind a rest.

Don't forget that a little lemon juice in cold water in the morning is a great help.

Breechloading Cannon.

The breechloading cannon were among the earliest used. We find them on English and other ships as early as the last century and therefore much before the time of the breechmeters. The cannon was a mere shell round the mouth of the barrel, and was loaded by the insertion of the "gunne chamber," an iron box containing the charge, which, fitted into and closed the breech. These guns were very clumsy affairs in comparison with the modern breechloader, but the principle was the same.

Two of a Kind.

Little Johnnie, who is considered the image of his father, was one day in his mother's way, when she told him, "You are always in the way." He replied, "I am just like papa."—Delinquent.

Pretty Lodge.

Nell—It's a college boy. Belle—thought so. Nell—From his conversation? Belle—No, I was too busy listening to his clothes to hear what he had to say.—Chicago.

ECZEMA OF THE SCALP.

Zam-Buk Cures a Boy who Suffered from it for Twenty Years.

Now and again mothers find that sores or ulcers on the heads of children refuse to heal, despite all ordinary treatment. Then is the time to try Zam-Buk's healing power. For three long years the son of Mrs. Grummitt, of 1444 West Street, Toronto, had eczema of the scalp. She says:—"It broke out behind his ears, and was so painful he was unable to sleep at night. I used almost every ointment known, and called in the doctor, but all of no avail. A friend recommended me to try Zam-Buk, and I procured a supply. After using three boxes my little boy was completely cured."

Another case which mothers will read with interest occurred recently in Winnipeg. Mrs. C. Koop, of 62 Alexander Avenue, Winnipeg, says:—"A year ago my little girl contracted eczema on the scalp, and, notwithstanding all I did the sores spread until the child's scalp was completely covered with sores. I tried every remedy applied had any effect on the disease. I took her to hospital, but she was quite bald. We were at this stage strongly advised to try Zam-Buk, and did so. From first contact with this wonderful healing balm the child got relief from the itching and pain. The sores were quickly lanced and a remarkably short space of time the child was cured. The hair soon grew again and is now quite long and in a healthy condition."

All who have care of children should know that Zam-Buk is particularly adapted, because of its purity, to the tender skin of children. It cures such equal distemper, blood-poisoning, ulcers, cold-creases, chapped hands, frost-bites, piles, bad legs, and all other eruptions. It eases the pain of sprains, and cures rheumatism, sciatica and neuralgia. All druggists and medicine stores have it for sale from Zam-Buk Co., Toronto, for price.

Just a Confession.

"Though I am no philanthropist," The student said, "it's true I'm always on the lookout for The good things I can do."

No man or woman should hobble painfully about because of corns when a certain relief is at hand as Holway's Corn Cure.

Reporter—How many were in attendance at that ward caucus you held the other night?

Politician—Why, I can give you only a rough estimate, but—

Reporter—That's exactly what I'm after. How many roughs were there?

Repeat it:—"Shiloh's Cure will always cure my coughs and colds."

"I see," remarked Uncle Jerry Peckham, the owner of the insurance companies have laid down a set of rules for making people live fifteen years longer. I ain't going to pay any other way. The insurance companies have got a good enough thing as this.—Chicago Tribune.

Minard's Liniment Cures Colds, etc.

"How did the furnace come to be choked?"

"I suppose father did it in a moment of desperation. He had a firebrand stuck in it all winter."—Louisville Courier-Journal.

The Uses of Bile in Indigestion

Bile is quite as important as are the gastric juices in the process of digestion.

Chronic indigestion disappears when an active liver supplies bile in sufficient quantities.

You think of bile as something disagreeable and poisonous, something to be well rid of. In the blood the bile is poisonous and harmful, but in the stomach it is a powerful solvent of food and pours it into the intestines, where it fulfills a most important mission.

Without bile human life is short, for Bile hastens the passage of the food along the alimentary canal, and Bile neutralizes the acid which passes from the stomach to the intestines. Bile prevents the fermentation of food in the intestines, which in turn causes gas, wind, flatulency.

Bile, in short, is Nature's cathartic and maintains a regular and healthful process of digestion and of elimination of waste matter by a free bowel. But to have a regular flow of bile the liver must be kept healthy and active and just here is where Liver Pills come in, for they are delicate, specific and direct in their action on the liver. It is only by making the liver healthy that the chronic cases of indigestion and dyspepsia will ever vanish.

A single box of Dr. A. W. Chase's Kidney-Liver Pills at 25 cents, a box will convince you of their extraordinary merit. One will cure you, at all dealers, or Edman, Bates & Co., Toronto.

DYED TO SAVE LIFE.

Lady Ramsay Was Saved in Indian Mutiny by Ayah.

The history of the family of the Dukes of Atholl, the heir to which title, the Marquis of Tullibardine, has been selected for a history, far back into the mists of antiquity, for the first Earl of Tullibardine, who received the title in 1676, was twelfth century baron of that place. Lord Tullibardine entered the Black Watch at one-and-twenty, and two years later exchanged into the Royal Horse Guards, his first public appearance as an officer of the latter regiment being an unfortunate one. It was on the occasion of the wedding of the Prince and Princess of Wales, and Lord Tullibardine was acting as a member of the guard of honor to their Royal Highnesses, when his horse stumbled and threw him heavily. Probably his helmet saved his life, but he was badly hurt, both by the fall and by the animal trampling on him. In 1860 he volunteered for active service in Egypt, and distinguished himself at Atbara and Omdurman, earning two medals, a clasp, and a D. S. O. His special exploit was to dash through the Darfour in order to reach the British troops, and after Omdurman he and Mr. Winston Churchill went among the British wounded, a very popular undertaking, and gave them water. The Marquis, moreover, extracted a bullet from a Dervish's arm with a button-hole from the pocket of his coat. Lady Tullibardine, daughter of Sir James Ramsay, like several of her family, is a Christian Scientist. Her mother, the late Lady Ramsay, met with a curious experience as a baby. She was saved from death by a Durand Indian mutiny, by being stained the dark-brown color of the native infant. Lady Tullibardine, who has been home-coming as a bride to Blair Castle, Blair Atholl, for there is an old custom in the family that bride must be carried across the threshold, but must be carried over in the arms of old retainers. This pretty ceremony has always been most religiously observed.

Stormed Church to See a Wedding.

The epidemic held by Lord Grand, whose marriage to Miss Beatrice Mills, daughter of Mr. Oden Mills, and niece of Mrs. Whitelaw Reid, has taken place, dates back to 1645. But there was a barony in the family long before this, for Sir Alexander Forbes, who married a granddaughter of the Scotch King, Robert III., was created Lord Forbes by King James II, of Scotland, in 1448. Lord Grand saw active service with the Scots Guards in the South African War.

Lord Grand is one of the wealthiest heiresses in New York. She is a good rider, and fond of outdoor pursuits, and is a splendid swimmer. As is natural, the wedding was looked forward to with considerable interest, and in this connection one is reminded that a ceremony of such importance is sometimes the cause of a regrettable lack of manners among the guests. On one occasion a determined woman headed a number of others equally determined, all of whom asserted that they would, at any cost, "get in" to the church where an English nobleman was to be married to an American heiress. They succeeded in carrying out their threat, but the leader of the party was severely handled, and her clothes were in tatters. Not in the least daunted at this, however, she went on to the bride's mother and said: "Mrs. Jones, you are right here, and I hereby congratulate you and your daughter and son-in-law." But apparently to her disbelieving appearance the congratulations were received in stony silence.

Versatility of Lord Tankerville.

The Earl of Tankerville, whose name has figured in an interesting case in the Chancery Division lately is one of the most philanthropic and versatile members of the Upper House. He is a noted athlete and sportsman, as well as a painter of much talent and a good musician. He also numbers an orchid-growing amongst his hobbies, and not the least interesting fact concerning both him and his wife is that they are keenly interested in evangelized movements. As Lord Rosnet he was for a long time the intimate friend and co-worker of Messrs. Moody and Sankey, and they have frequently preached over his estate in Shropshire. One of the most picturesque gatherings ever held in the country was an open-air religious revival, conducted by the same pair, some time ago. Lady Tankerville, however, is not, as is commonly reported, a "strong" woman. "Now," she says, "I have I ever taken an interest in any outdoor religious meetings in New York, as I have often seen stated."

Marjarian Who Cures Toothache. Hundreds of sufferers from toothache at St. Petersburg, rich and poor alike, besiege the house of a doctor known named Lazaroff, who is widely believed to have magical powers to charm away the pain. Lazaroff claims that he can cure toothache by the use of his talismans, which he gives to lay against the ache. He accepts no fee for his cures.

Horses Supplied With Sugar.

Every army horse in Argentine received this year a supply of food two ounces of sugar. The sugar is intended to increase the animal's power of endurance.

ONLY THING THAT HELPED HIS KIDNEYS

British Columbia Likes Cin Pills

Chilliwack, B.C. I divide the year about equally working on this ranch and on various logging claims, being consequently entirely dependent on bodily fitness for a living. At times I have suffered like many others in this country from backache and weak kidneys, sometimes to the extent of being laid up for weeks together. Having tried many remedies I have pleasure in stating that your Cin Pills are the one from which I have derived any permanent benefit. I had been using them only a short time when the trouble left me, and has not returned since. J. EDWARD JAMES.

Try them at our expense. Write for sample box, free if you mention this paper, then, when you see that Cin Pills are helping you, you can get them at your dealer or from us direct, 50c a box for \$2.50.

An Architect's Patrons.

John Mervin Carriere, at a meeting of architects in New York, said: "Amazingly the age of an architect's patrons! The average man, in fact, is 35 before he begins to save seriously; his pile isn't made till he is 50; he begins to build himself a house in his old age, and his funeral takes place about the time the painters are called in."

It is Wise to Prevent Disorder.

Many causes lead to disorders of the stomach and liver are free from them. At the first manifestation that the stomach and liver are not performing their functions, a course of Parmenter's Vegetable Pills should be tried, and it will be found that the digestive organs will speedily become healthy again. Laxatives and cathartics are so blended in these pills that no other preparation could be so effective as they.

The old farmer stood in front of the "Huron Frog" in the museum. "How did you ever find out you were a contortionist?" he drawled, "Sh," whispered the contortionist. "It's a secret, but I once tried to dress in the upper berth of a Pullman sleeper."—Chicago News.

Have to Submit By-laws Again

The Council held an adjourned meeting on Saturday night in the Council Chamber at the School house to finish up business left over from the previous Council meeting. Mayor Corbett, Councilors Hunsberger, Osmond, Moyer, Good, Liesemer, and Solicitor Macleod were present.

The first matter taken up was the money by-law question.

Solicitor Macleod stated that he had gone into the matter thoroughly and could find nothing in the Ordinance relating to making separate by-laws for different expenditures of money but he had made enquiries from other sources, notably Calgary, and he was informed that they had just had a \$25,000 turned down by the brokers for the same reason as is given for the Didsbury by-laws not being accepted.

The Council felt that they would have to again ask the ratepayers to sanction the money by-laws as they could not dispose of the debentures otherwise.

The by-laws for the expenditure of \$1500 for fire fighting apparatus and fire hall, and one for \$2000 for street improvements was then given two readings and will be advertised in the usual way, when it is hoped that the ratepayers will again act unanimously as they did with the one by-law and pass the same.

Bills amounting to \$450 for the erection of the fire hall and lock-up were presented and on motion were referred to the Civic Works Committee for their approval.

A bill for \$150 from Solicitor Macleod for salary and expenses in connection with opening up the crossing was on motion ordered to be paid.

Solicitor Macleod handed in his resignation as solicitor as he is going to leave town.

On motion the resignation was accepted and the Council's appreciation of Mr. Macleod's services ordered entered in the minutes.

An application was received from Mr. Patterson for the Solicitorship. On motion consideration of the application was laid over till next meeting. The Council then adjourned.

Special Summer Course Moody Bible Institute of Chicago

The Moody Bible Institute is planning a special Summer Course of study in the Bible and methods of Christian work. Special attention is also to be given to instruction in Gospel music and evangelistic singing by Dr. D. B. Townner assisted by E. O. Sellers, J. B. Trowbridge, W. C. Coffin, W. L. Gilpin and Geo. S. Schuler.

Among those who are to lecture on the Bible are Dr. R. A. Torrey, Dr. James M. Gray, Dr. C. I. Scofield, Dr. William Evans, Rev. George Soltan, Rev. George O. Bachman, The Rev. E. A. Marshall who has twice made tour of the world in behalf of foreign missions, will have charge of the Missionary studies.

Special attention will be given to various phases of practical Christian work under the direction of Rev. H. W. Pope. Open air, tent and gospel-wagon meetings will be held daily. An opportunity is thus afforded pastors and theological students to get a thorough training in practical methods in Christian service.

Full information regarding the Summer Course may be obtained by addressing Rev. H. W. Pope, Supt. of Men, 80 Institute Place, or Miss C. A. Cary, Supt. of Women, 230 La Salle Avenue, Chicago.

Committed for Trial

The preliminary hearing of the grain stealing from the C. P. R. was held on Wednesday before Justices Peterson and Atkins.

Inspector Geo. Grierson of the C. P. R. and Solicitor Pearson of the firm of Loughheed and Bennett, Calgary, appeared for the prosecution, and Solicitor Macleod for the defendant Fry. The charge was that Fry had stolen from the C. P. R. 32 bushels of oats and one box of soap from C. P. R. cars.

Evidence was given by Elmer Finkle and Denzil Walkley, the C. P. R. agents, G. Hunter and H. E. Wiegand, grain buyers, relative to the grain being stolen from the car and the identification of the grain.

Inspector Grierson of the C. P. R. also gave evidence to being notified of the theft and the steps that were taken to apprehend the thieves.

Const. Bason of the R.N.W.M.P. testified that he went out with Const. Vernon and found Fry and Mackey taking two loads of the stolen oats with barley mixed from Fry's house. They searched the house and granary and found more of the oats, several packages of grape nuts, apples, eight sacks of sugar, 25th box of icing sugar, 47 bars of soap and five packages of Fry stated that he got the goods from Winnipeg, Calgary, Didsbury and Oids. Fry showed him some bills but they did not correspond, asked where he got the oats and he said Conway's.

Const. Vernon corroborated Const. Bason's evidence.

All the evidence being taken for the prosecution the magistrates committed for trial.

Another charge of stealing sugar from W. Bailey was then taken up and Fry was also committed for trial on this charge.

There are several other charges against the accused which will be heard in a few days.

Knee Hill Creamery

The meeting of the patrons of the Knee Hill Creamery was held on Thursday last. It was decided to make no contract for the butter for the coming year, and to recommend against joining the Dairymen's Association. The directors report was approved. The following extracts from the reports will show the enviable standing of the Creamery which is an important factor in the prosperity of the district. Total pounds of butter manufactured for year ending April 1st 1909, 123,104; total cash distributed to patrons \$23,274.45; average price for year 23.43/100; 10 patrons 10.43/100; average price of butter fat 21.37/100; for six summer months butter manufactured, 97,292 pounds; price 22.77/100; 10 patrons 18.77/100; butter fat 22.42/100; for six winter months, butter manufactured 25,812; price 25.94/100 to patrons 21.94/100; butter fat 26.43/100; best month in year August with 20,493 pounds of butter which netted the patrons \$3,776.6.
